

TYVEK

Tyvek® is a trademarked type of synthetic paper.

It is tearing-resistant and produced from an ecologically-neutral material.

Depending on type, it absorbs either a small amount of moisture or none at all. Because of its beneficial weight / durability ratio, Tyvek® is stronger than common paper; compared to textiles, it is more economical and versatile. Tyvek® guarantees unique quality for polygraphy and, thanks to its pure-white and extraordinarily smooth surface, stands out among other materials.
